LAUNCH COMPLEX F TYURA TAM MISSILE TEST CENTER, USSR

Launch Complex F of the Tyura Tam Missile Test Center is located at 46-02-00N 63-06-05E at the terminus of a newly constructed, well surfaced road approximately 7 nautical miles northwest of Launch Complex E (Figure 1). It was first observed on

KEYHOLE [REDACTED] and was again covered by photography in [REDACTED] coverage, construction still had not progressed

to such a stage as to permit the determination of the type or the configuration of the launch complex; however, its location on a hillock and the length of time it has been under construction may possibly indicate hardening. No excavations which resemble those at Launch Complex D can be identified at this time. The road pattern is still indistinct. The complex is not rail served. Eight or nine support buildings are visible (Figure 2).
